(54) **TRANSACTION SYSTEM**

(57) Abstract:

PURPOSE: To grasp the latest information of transaction within a portable medium by reading and recording the information of offline transaction recorded in the portable medium when the portable medium is received and the transaction is executed by online processing.

CONSTITUTION: When transaction is executed by a transaction device 7 to execute required transaction processing by online processing with receiving a portable medium 1 in a system to execute the required transaction between the portable medium 1 and transaction devices 7 or 5 to execute the online or offline transaction processing, the fixed information of the offline transaction stored in the portable medium 1 is read and is recorded. Thus, even when the recording contents of the portable medium 1 are changed with the execution of the transaction, the latest information at a transaction device 7 side can be always grasped.
